Summary

Advanced computer science student and developer passionate about building scalable web and mobile solutions. Hands-on experience in the full development lifecycle, from React frontend architecture to mobile app deployment on the Google Play Console. Self-taught developer eager to join a mentorship program to accelerate professional growth.

Education

Universidad Nacional de Quilmes , A.S in University Technician in Computer Programming – Buenos Aires, Argentina	Feb 2021 – present
• Status: Advanced (5 courses remaining). Expected Graduation: Dec 2026. • GPA: 7.55	
Universidad Nacional de Quilmes , B.S in Licentiate in Computer Science – Buenos Aires, Argentina	Feb 2021 – present
• Continuous training in software engineering, databases, and complex algorithms. • GPA: 7.55	

Projects

LFGBBP Laboratory Website (UNQ)	Dec 2025 – Jan 2026
Institutional website development for the Physiology and Genetics of Beneficial Plant Bacteria Laboratory.	
• Implemented internationalization (i18n) architecture for English/Spanish support using JSON and JavaScript. • Designed a responsive UI featuring sticky navigation and custom modals without heavy external dependencies. • Integrated Google Analytics for user metric tracking, applying data analysis knowledge.	
Mi Taller (Mobile App)	Nov 2025 – Jan 2026
Mobile application for repair shop management and order tracking, currently in testing phase (Beta).	
• Developed order status logic (Received, In Progress, Unpaid) and client management features. • Implemented dynamic PDF receipt generation including digital client signatures and invoice numbering. • Managed Google Play Console setup and APK generation for internal testing.	

Certificates

Data Analytics	Dec 2022
Enhanced analytical skills by processing, cleaning, and visualizing data with Python.	
Web Development	Dec 2022
Web layout, HTML5, CSS3, SASS, Bootstrap, and SEO best practices.	
JavaScript	Mar 2023
Programming logic, DOM manipulation, Events, JSON, and Storage.	

Skills

Languages: Spanish (Native), English (B2 - score 175)

Programming: HTML5, CSS3, JavaScript (ES6+), TypeScript, Java

Frameworks & Libraries: React, React Native, Node.js, Bootstrap

Databases: PostgreSQL, SQLite

Infrastructure & Tools: Git, GitHub, Google Analytics, Google Play Console
